

## BOARD ELECTS WHITNEY AGAIN

McCormick & Co.'s Representative Is  
Made Treasurer of Board of  
Education.

## NEW MEMBER NOT CHOSEN

STAR CHAMBER WRANGLE RE-  
SULTS IN ANOTHER DELAY.

S. A. Whitney, assistant cashier of McCormick & Co.'s bank, was re-elected treasurer of the board of education last night by a unanimous vote. For several weeks the election of a treasurer has been deferred, and a struggle has been waged between Mr. Whitney and A. C. Street of the Utah National bank for the position. Last evening Director C. S. Martin announced that Mr. Street had withdrawn, and Mr. Whitney's election followed.

### No New Member.

The board went into executive session to consider the matter of electing a new member from the Fourth ward to succeed H. C. Edwards, resigned. After half an hour's discussion, it was decided to defer the election until Thursday of next week when the board will hold a special session to consider plans for new school buildings. At this same meeting the matter of introducing modern languages as an elective course in the grade schools will also be considered.

The board decided to enforce that provision of the state law which provides that children under six years of age shall not enter the schools. It is claimed that children whose birth certificates on file at the city and county building show them to be only five years of age have been palmed off by their parents as being of the legal age in order to secure their admission. The matter of enforcing the law was referred to the superintendent.

**Qualifications for Teachers.**  
Definite salary qualifications for teachers were decided upon. It was provided that under the present rule, teachers who have had a certain number of years' experience elsewhere, should be rated as having had one year less experience than if they had had the same number of years experience here.

## ONE DIVIDEND IS DECLARED

Creditors of B. H. Schettler  
Will Receive 2-1/2 Per Cent  
of Cash on Hand.

Twenty creditors of B. H. Schettler's defunct bank meeting yesterday morning at the office of Referee Charles Baldwin and a dividend of 2 1/2 per cent was declared on \$2,800, the amount of cash on hand from recent sales. The dividend will be paid next week at the office of G. B. Blakely, 164 South West Temple street. This makes the total dividend declared since the bank was closed 10 1/2 per cent.

The creditors refused to accept the offer made by Tuttle Bros. of \$20,000 for Schettler's Brigham street property. This bid was made by the local real estate agency for some Los Angeles parties. The creditors contend that the property is worth \$25,000, and decided yesterday to ask that price.

## RITCHIE TO TRY CASE.

Salt Lake Judge Will Probably Go to  
Ogden for Halverson Trial.

Judge M. L. Ritchie of the Third district will probably be sent to Ogden to try the charge against District Attorney George Halverson of that city. Word was received by Governor Cutler yesterday afternoon that an affidavit of prejudice had been filed against Judge J. A. Howell of the Second district, and asking him to send a judge. The case is set for March 9, and Judge Ritchie is expected to arrive in Ogden then. It is possible that Judge Howell will come here to hold court during that time.

## MAKES CHARGE OF MURDER CRIMES

Pinkerton Superintendent Predicts  
More Arrests in Connection  
With Steunenberg Case.

## TELLS DETECTIVES' SIDE

DECLARES MEN IN CUSTODY  
WILL BE CONVICTED.

"It is my firm belief that the men, leaders in the Western Federation of Miners, now in the state penitentiary of Idaho, will be convicted of the crimes with which they are charged," said H. F. Cary, superintendent of the Denver district of the Pinkerton detective agency at the Wilson hotel last night. Mr. Cary is second in command of the forces of the Pinkerton agency in the west. He is directly under James MacFarland, manager of the western division of the agency, who secured the confession of Harry Orchard, the man whose confession caused the arrest of Moyer, Haywood and Pettibone in Denver, Colo., a short time ago. Mr. Cary has been more or less in contact with the Steunenberg case since the matter came under the observation of the agency.

"The present case is being called persecution of labor leaders by many persons," he said. "That is wrong. We are being called to break up what we suppose and will try to prove to be a gang of murderers. We are trying to make the guilty suffer for their crimes."

"From the confessions of Adams and Orchard we have plenty of evidence, I believe, to convict the men under arrest. We are not relying on that evidence alone. We have been digging around on all sorts of clues, and at present we have corroborative evidence to warrant not only the conviction of the men under arrest, but the arrest of many more men."

**Have Alleged Murderer of Collins.**  
"At present we have under arrest and safely placed in jail the murderers of Arthur Collins, who while acting as manager of the Smuggler-Union mine of Telluride, Colo., was shot in the back by hitherto unknown assassins. Time will show this. I am not speaking at random. I know for I have been on the case for a long time. I cannot divulge the name just now, but within a short time Arthur Collins' murderer will swing in the air."

"When we have finished with the work in Idaho we shall begin making arrests in Colorado. We are working now securing evidence, and I firmly believe that the revelations we shall make will startle the world."

"Of the matters to be investigated by us there are some which are more or less familiar to those in western cities. We shall attempt to explain the mysterious disappearance from Telluride, Colo., of Wesley Smith and W. J. Barney. These men were seen one morning by friends and within a few hours disappeared. I thought at the time they had opened and swallowed them. We shall try to locate the murderer of Lyle Gregory, who was shot in the back one Saturday night two years ago in Arroyo, Colo. Gregory was a private detective in the employ of the Mine Owners' association and was prominent in the labor troubles in the Idaho Springs, Colo., district some three years ago. We shall try to locate the murderers of Martin Gleason, superintendent of the Wild Horse mine of Cripple Creek, who was killed and thrown down a shaft four years ago. We shall attempt to fix the blame for the attempt to blow up the power house of the Colorado Springs Electric company which attempt was made three years ago. We shall try to locate the parties responsible for the death of Beck and McCormick, foreman and shift boss of the Victor mine in the Cripple Creek district some three years ago. These men were killed by an explosion blown by some party while they were descending the shaft of the Victor."

## Independence Explosion Also.

"We shall find the men who planned and executed the blowing up of fourteen innocent men at the railway station in Independence, Colo., just after the death of Cripple Creek strike leader, enumerate a great many other murders and planned explosions if I cared to do so. We shall get the guilty men sooner or later, just as we did years ago with the Molly Maguires. We never sleep and we always work. Results will come sooner or later."

"The Pinkerton agency is not seeking rewards. We are being paid a certain per diem rate with expenses. We do not care to get the rewards, as our remuneration is sufficient without that. We are not interested in the case beyond the interest of our clients. We are interested in morality. We want to free the intermountain territory of a gang of murderers. We want to do this to better society first, and then to get money for it is a business proposition afterward."

## Crimes Enumerated by Orchard.

"The Orchard confession has been corroborated absolutely by our own investigations and by the confession of others. We have received more confession than is generally known."

"Adjutant General Buckley Wells and two of our men dug up the bomb which was set to kill Justice Goddard of the supreme court of Colorado. It was found just outside the gate of the judge's residence at the corner of Twenty-seventh and Humboldt streets, Denver. The bomb was made of dynamite in the main. It was set off a wooden box about fifteen inches long, with a cover over the whole thing with the exception of one end, where a shaped slit or opening was made. Under this was located the explosive. Resting in the slit was a small phial of sulphuric acid, the mouth pointing downward. In the mouth was a cork with a small pin stuck into it. From the pin a strong string ran out of the box to a point on the latch of the gate. It was planned that when the gate opened the cork would be pulled and the sulphuric acid allowed to drip over the caps of potash and thus cause the explosion."

"Had the plan worked, and the bomb exploded, hundreds of lives would have been lost for immediately behind the judge's house is located the Manual training high school where nearly 1,000 students are in daily attendance. The explosive power of the bomb was great enough to cause every house and building within a block of it to be blown to atoms."

## Bomb Intended for Another.

"The fate which M. B. Walley met was not intended for him. Judge Gabbert, chief justice of the supreme court of Colorado, was the one sought to be blown up. The bomb which killed Walley was similar to the one which was planned to kill Judge Goddard. It was the second attempt made. The first one failed. According to Orchard, the string attached to the phial of acid and attached to it

## THREE CRATES OF EGGS STOLEN FROM SIDEWALK IN FRONT OF GRAIN AND PRODUCE STORE

Three crates of fresh eggs were stolen yesterday afternoon from the sidewalk in front of Sam Williamson's grain and produce store, 21 West First South street. The consignment was shipped from the Morgan & Son Poultry company, at Colinston, Utah, and had been left on the sidewalk by the Pacific Express company's delivery man, Mrs. Williamson signed for the delivery invoice and in the meantime had sold two of the crates of eggs. When he went out about 4 o'clock to bring the crates inside they were missing. He questioned his employees about them, but nobody had moved the crates.

## SAY THAT 1,500 WILL GO

M. & M. A. Officials Predict  
Excursion to Nephi Will  
Eclipse That to Logan.

The number of tickets already sold for the second "Get Acquainted" excursion of the Manufacturers & Merchants' association, which starts at 7:30 this morning from the Salt Lake depot for Nephi and the south, far exceeds the number sold for the first excursion held last January. It was predicted at headquarters that over 1,500 business men and friends will make the trip today.

The county towns are helping materially to swell the number of excursionists. Late advices from Murray showed that 150 were scheduled to go from that point, while Sandy will send fully sixty men.

Advices from Draper, Lehi and American Fork, as well as Provo, and other towns farther down the line, indicate that fully 500 to 600 will take in the trip.

T. L. Poote, secretary of the Nephi Commercial club, and a delegation of Nephi business men telephoned to association headquarters last night that they would meet the excursion at Santaquin and on the way down would outline the programme for the stay in Nephi.

## BUYS WAREHOUSE PROPERTY

James E. Jennings Purchases  
Land on Second South St.  
—McMillan to Build.

James E. Jennings of the Utah Sugar company purchased yesterday from the Savings & Trust society of San Francisco, Cal., two lots on Second South between Second and Third West streets. The consideration was \$22,000. The property has on it a two-story building which has been used of late as a warehouse. The property is located on a spur of the Rio Grande Western railroad and is considered valuable from a truckage standpoint. Mr. Jennings is a partner in individual investment, the Utah Sugar company, of which he is an officer, being in no manner interested in the deal, he says.

The Home Trust & Savings company sold yesterday afternoon, at 100 feet on First South between Twelfth and Thirteenth East. The consideration was \$22,000. The consideration will startle the world.

## PLANS TO SPEND \$400,000

Board of Public Works Will Ad-  
vertise for Bids for Work  
During Current Year.

Four hundred thousand dollars is the sum which the board of public works plans to spend next spring and summer. At the board meeting last night, the secretary was instructed to advertise for bids for repairs to the city streets, walks, sewers, etc., and for the paving of the following streets: First North from West Temple to Third South; Second North from Fourth South to Seventh South; Fourth South from West Temple to Second East.

It is estimated that the repairs and the paving will cost about \$400,000. The board will advertise for bids to clean up streets as fast as they finish work, and P. P. Ford, sewer contractor, was instructed to fix up all trenches.

at the end a lady's pocket book. Walley saw this and probably tried to pick it up. The bomb exploded with the result that there was not enough of Walley found to make a decent burial possible. Judge Gabbert was in the habit of passing through the lot where the bomb was planted, but on this one morning, he did not use his accustomed route. The fact that saved his life. It cost the life of another man, innocent of any wrongdoing.

## Defends Colorado Action.

"A hue and cry has been raised against our methods of getting Moyer, Haywood and Pettibone out of Colorado and into Idaho. We gave them much chance as any criminals ever get to exercise the rights of habeas corpus. Moyer was arrested while in a sleeping car the day before last about 8 o'clock Saturday evening. Haywood was taken about 9 o'clock the same evening. He was found in a compromising position when arrested. The last man caught was Pettibone. He was taken to the county jail at a few minutes before 11 o'clock Saturday night. The train which took the men to Idaho did not leave Denver until 6 o'clock Sunday morning. Surely nearly ten hours is enough time in which to give an extradited prisoner a chance to communicate with his attorney."

"We had all three men under surveillance for three weeks before they were arrested. We did not shadow them, but we knew their actions from time to time. Had they attempted to leave town they would have been arrested before they could have boarded a train."

"We have to secure the convention of all the men connected with all the murders from the state of Colorado to the killing of the independence miners. We shall use all honorable means to accomplish this. If we fail it will be because the men are innocent. For their own sakes and for the sake of their families, I would rather that these men were innocent."

"THERE'S A REASON."

Mr. Williamson telephoned the police and Detective Matt Rhodes was detailed on the case. A search of the premises was made but the crates were nowhere to be found. It was learned, however, that a wagon had been backed up to the curb and the crates loaded into it. Mr. Williamson is satisfied himself that this is the way the eggs were carried off without attracting the attention of anybody in the store.

## LYON RECEIVES DAMAGES

Jury Finds That He Was Victim  
of Malicious Prosecution by  
Murray Officers.

George E. Lyon received a verdict for \$450 against George Brown and Michael Mauss, respectively mayor and marshal of Murray, and for \$300 against Mauss individually, by a jury in Judge Lewis court yesterday, on a suit for damages for malicious prosecution and abuse of process. The joint verdict was segregated, \$200 being for actual damages and \$250 for punitive and exemplary damages.

The suit grew out of Lyon's arrest at the instigation of the defendants. They had endorsed his note, and caused him to be brought back from southern Utah on a charge that he had removed his property with a view to beating his creditors. After his arrest the criminal charge was not pressed against him. Because it was not pressed Lyon set up the claim that it was malicious.

The defendants asserted that they had not endorsed his note, and because of his promise to go to work and pay his debts. The case was on trial for several days. It was announced last evening that the case would be appealed at once.

## TWO SEEK DIVORCES.

Husband and Wife Both Ask for Se-  
verance of Their Bonds.

W. J. Kohlberg yesterday brought suit for divorce against his wife, Mrs. Kohlberg, on the ground of desertion. They were married in Rockford, Ill., Dec. 23, 1888, and later removed to Salt Lake. Subsequently, the husband charged, the wife returned to Rockford, and has since refused to live with him.

Gwendolyn Kirkman, in suing Samuel G. Kirkman for divorce, charges him with non-support, habitual drunkenness, and with making accusations of infidelity against her. They were married in Salt Lake, and the scheduled assets to \$1,500, including a house at 812 First South street.

## Householders Bankrupt.

P. J. Wolf & Sons, house movers, filed a petition of voluntary bankruptcy in the United States district court yesterday. The petition includes the property of both the partnership and of the individual members of the partnership as individuals. The total liabilities amount to \$4,200, and the scheduled assets to \$1,500. Philip J. Arthur G. and Harvey A. Wolf comprise the partnership members.

## Court Notes.

The Western Loan & Savings company began suit yesterday against Hyrum Burke and wife to collect a promissory note for \$1,000, and for the return of a deed to a piece of land.

Judge Armstrong signed a decree yesterday permitting Mr. and Mrs. John Hamilton to adopt Mary Jane Kenner, an infant less than a month old.

The Utah Implement company began suit yesterday against Enoch Clark et al. to collect for promissory notes and for the return of a chattel mortgage.

The case of the San Pedro, Los Angeles and Salt Lake railroad company vs. Bridget S. Kersey et al., to condemn right of way, was commenced before a jury in Judge Lewis' court yesterday afternoon.

## Now Is the Time

Chance for Profit Offered Herald  
Readers—Let No One Fail to  
Benefit.

Imperfect cooking and hurried eating result in indigestion. At first the system imperfectly digested organs are strong enough to accommodate themselves to all manner of ill treatment, but the time soon comes when the walls of the stomach are inflamed, and the gastric juices are not secreted in sufficient quantity to digest the food, so that it is passed through the system imperfectly digested, giving but little nutrition and strength.

If one can only recognize the symptoms of indigestion in the early stages, he is then in position to protect himself by proper attention. "He is twice armed who is forewarned."

Now is the time to be benefited. Just as soon as you find that your food can be tasted after eating, when the abdomen swells or bloats, when the tongue is furred, the breath heavy, the appetite poor, the head dull and aching occasionally, then is the time for treatment with M-I-O-na.

So uniformly successful has M-I-O-na been in curing all stomach troubles that F. C. Schramm gives a signed guarantee with every 50 cent box to refund the money if it does not cure. The risk is all his. If you have any stomach weakness, here is the opportunity to be cured without risking any other remedy.

## FINES BOYS' EMPLOYERS

Judge Brown Imposes Penalty  
on Those Who Hire Chil-  
dren of School Age.

Representatives of the Paris Millinery company, F. Auerbach & Brother and the Western Union Telegraph company, were before Judge Willis Brown in the juvenile court yesterday, charged with employing boys under 16 years of age, who, according to law, must be in school. Technical charges were made of "contributing to the delinquency" of such boys.

The court, after calling attention to the law and announcing his intention to fine, fined each person accused \$50. He consented, however, to suspend \$40 of each fine upon the promise of the defendants not to violate the law again, so, in each case, \$10 was paid.

## WILL VOTE ON BOND ISSUES

Jordan and Granite School Dis-  
tricts to Hold Elections  
This Month.

Bond elections in both the Jordan and Granite school districts, lying outside the city but in Salt Lake county, will be held the latter part of this month. The Jordan district will hold its election on March 20 to determine whether \$50,000 in bonds shall be issued to erect new school buildings at Union, South Jordan, Bingham and Sandy and to install a new heating plant in the school building at River-  
erton.

The Granite district's election will be held March 21. It is proposed to issue \$80,000 bonds to erect new buildings at Mill Creek, South Cottonwood and Granite and to complete the buildings at Sugar, Farmers and Taylorville.

## PYTHIAN PLAY PLEASSED

Knights Present "Damon and Pyth-  
ias" Before Large Au-  
dience.

The Knights of Pythias presented the Sicilian story of "Damon and Pythias," on which Pythian knighthood was founded, to an unusually large audience, appreciative and enthusiastic, last night at the Salt Lake theatre. This was the first effort of the local Pythian knights in the amusement line and it was crowned with success. Miss Alice Gibson, under whose direction the play was presented, is due a portion of the credit. Her Damon was especially good. His support in Louis Dworshak as Pythias and Prescott Erickson as Dionysius, shared equally the applause.

Extradition papers for Dr. David P. Maxwell, wanted in Cleveland, O., on a charge of performing a criminal operation, were signed yesterday by Governor Pattison of Ohio, according to a dispatch last night, and they were on their way to the local charge of attempting to bribe an officer.

Should Governor Cutler honor the Ohio requisition there will doubtless be another battle in the courts for the prisoner's liberty. If the courts permit the Ohio officers to take Maxwell, the local charge against him will doubtless be dismissed.
